## AMENDMENT AFTER FINAL REJECTION

This paper is being filed in response to the Office Action mailed August 3, 2006. Reconsideration and reexamination are respectfully requested in light of the amendments and remarks below which are believed to place the claims in condition for allowance, or at least reduce the issues presented for appeal.

This amendment uses the Revised Amendment Practice. The entire set of presently pending claims has been reproduced below in the approved revised amendment format. Amendments relating to the specification, claims, and/or drawings begin on separate pages of this paper. Any amendments to the specification and drawings have also been presented in the revised format. No separate marked-up copy of the amended specification and/or claims has been provided.
